

CHEVROLET P1873: TORQUE CONVERTER STATOR TEMP SWITCH CKT LOW

OVERVIEW

Severity	:	<div><div></div></div> High
DIY Difficulty Level	:	<div><div>Intermediate</div></div>
Repair Cost	:	\$100-\$250
Can I Still Drive?	:	Yes (Short-term only)

What Does The Chevrolet P1873 Code Mean?

Condition for setting the DTC:

- The TFT is less than 60°C (140°F).
- The torque converter stator temperature switch circuit indicates a hot mode.
- All conditions are met for 5 seconds.

How Can You Fix The Chevrolet P1873 Code?

- If the switch and the external wiring are OK, verify the circuit ground integrity through the transmission fluid cooler pipes.
- Inspect the wiring for poor electrical connections at the PCM.
