

Chrysler C1502: Tire Pressure Sensor 2 Internal

OVERVIEW

Severity

:

Medium

DIY Difficulty Level

:

Intermediate

Repair Cost

:

\$50-\$100

Can I Still Drive?

:

No

What Does The Chrysler C1502 Code Mean?

The tire pressure sensor actively monitors the air pressure and air temperature inside the tire, the sensor internal battery status, and the radial acceleration of the wheel. Each sensor has a unique ID code.

The sensor transmits the data at regular intervals via an encoded signal to a receiver circuit located in the Wireless Ignition Node (WIN).

What Are The Potential Causes Of The Chrysler C1502 Code?

- INCORRECT SENSORS
- TIRE PRESSURE MONITORING (TPM) SENSOR
- WIRELESS IGNITION NODE (WIN)
