

Dodge P1129: Closed Loop Fueling Not Achieved - Bank 2 Upstream

OVERVIEW

Severity

:

High

DIY Difficulty Level

:

Advanced

Repair Cost

:

\$100-\$600

Can I Still Drive?

:

No

What Does The Dodge P1129 Code Mean?

Once the enable time has been reached and all enable conditions are met, the diagnostic will check for closed loop fuel control. If closed loop control is not active by the time the enable timer has expired, the diagnostic will fail.

What Are The Potential Causes Of The Dodge P1129 Code?

- Restricted fuel supply line
- Fuel pump inlet strainer plugged
- Fuel pump module
- O2 sensor heater operation
- O2 signal circuit
- O2 return circuit
- O2 sensor
- ECT sensor operation
- Engine mechanical problem
- Fuel filter/pressure regulator
- Powertrain control module (PCM)
