

DODGE U1454: IMPLAUSIBLE DATA RECEIVED FROM THE GATED PARK SWITCH

OVERVIEW

Severity	:	<div><div>Medium</div></div>
DIY Difficulty Level	:	<div><div>Intermediate</div></div>
Repair Cost	:	\$75-\$200
Can I Still Drive?	:	Yes (Short-term only)

What Does The Dodge U1454 Code Mean?

When the Radio Frequency Hub (RF Hub) is awake, it sends a signal on the (T824) Transmission (TRS) Park Signal circuit to the Electronic Shift Module (ESM). When that circuit is grounded by the transmission switch, the RF-Hub broadcasts that message, over the CAN C Bus, that the vehicle is in the park position.

What Are The Potential Causes Of The Dodge U1454 Code?

- Transmission (TRS) park signal circuit shorted to ground
- Electronic shift module (ESM)
- Radio frequency hub (RF hub)
