Welcome to the comprehensive list of ISO/SAE reserved codes for On-Board Diagnostics 2 (OBD2) systems!

If you have ever encountered an "ISO/SAE Reserved" code on your OBD scanner, you may be wondering what it means and how to fix it. Unlike other OBD2 codes that indicate specific faults or malfunctions in your vehicle's components, ISO/SAE reserved codes indicate that the system is not meeting the standards set by the International Organization for Standardization (ISO) and the Society of Automotive Engineers (SAE).

This PDF file consists of over 6,000 codes. It is intended to be used as a reference tool for identifying ISO/SAE reserved codes only, and does not include descriptions of the codes. If you would like to learn more about the symptoms, causes, and solutions for these codes, we recommend visiting our article on ISO/SAE reserved codes at the following link: <https://www.obdcodex.com/iso-sae-reserved/>. Our article provides detailed information on ISO/SAE reserved codes, including their descriptions, possible causes, and recommended solutions.

We also offer a Code list generator tool and a Free Download page where you can find a range of useful resources for diagnosing and repairing OBD2 issues. So, if you're interested in exploring other code lists, head over to our website obdcodex.com and check them out!
